Research Papers

Accumulation of water and generation of leachate in a young landfill
D. Bendz (Lund, Sweden), V.P. Singh (Baton Rouge, LA, USA), and M. Åkesson (Lund, Sweden) 1

Modelling the link between hillslope water movement and stream flow: application to a small Mediterranean forest watershed
A. Taha (Damascus, Syria), J.M. Gresillon (Talence, France) and B.E. Clothier (Palmerston North, New Zealand) 11

Space–time scale sensitivity of the Sacramento model to radar–gage precipitation inputs
B.D. Finnerty, M.B. Smith, D.-J. Seo, V. Koren (Silver Spring, MD, USA) and G.E. Moglen (College Park, USA) 21

Estimation of temporal variation of sediment yield from small catchments through the kinematic method
U.C. Kothyari, A.K. Tiwari and R. Singh (Roorkee, India) 39

Analysis of focused unsaturated flow beneath fissures in the Chihauhan Desert, Texas, USA
B.R. Scanlon, R.S. Goldsmith and J.G. Paine (Austin, TX, USA) 54

A distributed physical approach for surface–subsurface water transport modeling in agricultural watersheds
F. Bouraoui, G. Vachaud, R. Haverkamp and B. Normand (Grenoble, France) 75

New geological and hydrogeological implications of the resistivity distribution inferred from audiomagnetotellurics over La Fournaise young shield volcano (Reunion Island)
M. Courteaud (Saint Denis Messag, France), M. Ritz (Dakar, Sénégal), B. Robineau, J.L. Join and J. Coudray (Saint Denis Messag, France) 89

Numerical evaluation of the flowmeter test in a layered aquifer with a skin zone
N.C. Ruud (Riverside, CA, USA) and Z.J. Kabala (Durham, NC, USA) 97

Real-time tracking of convective rainfall properties using a two-dimensional advection–diffusion model
A. Kawamura, K. Jinno (Fukuoka, Japan), R. Berndtsson (Lund, Sweden) and T. Furukawa (Fukuoka, Japan) 105

Moisture retention of a swelling soil under capillary and overburden pressures
A.-u.-R. Tariq (Lahore, Pakistan) and D.S. Durnford (Fort Collins, CO, USA) 115

Spatial variability of saturated hydraulic conductivity in shallow macroporous soils in a forested basin
J.M. Buttle (Peterbourough, Canada) and D.A. House (Waterloo, Canada) 123

Occurrence of mineral water springs in the stream channel of the Allier River (Massif Central, France): chemical and Sr isotope constraints
P. Negrel, C. Fouillac and M. Brach (Orleans, France) 139

Unsteady unsaturated flow from a surface disc source
P.R. Bhatnagar (Almora, India), H.S. Chauhan and V.K. Srivastava (Pantnagar, India) 150

Stochastic simulation of transmissivity fields conditional to both transmissivity and piezometric data—I. Theory
J.J. Goméz-Hernádez, A. Sahuquillo, J.E. Capilla (Valencia, Spain) 158

Stochastic simulation of transmissivity fields conditional to both transmissivity and piezometric data 2. Demonstration on a synthetic aquifer
J.E. Capilla, J.J. Goméz-Hernádez, A. Sahuquillo (Valencia, Spain) 171

Effects of spatial and temporal variability on simulated transpiration ratio
P. Droogers 185

Long-range persistence in climatological and hydrological time series: analysis, modeling and application to drought hazard assessment
J.D. Pelletier and D.L. Turcotte (Ithaca, NY, USA) 194

Radon tracing of groundwater input into Par Pond Savannah River Site
D.R. Corbett, W.C. Burnett, P.H. Cable (Tallahassee, FL, USA) and S.B. Clark (Aiken, SC, USA) 205

Mass-balance analysis of reactive transport and cation exchange in a plume of wastewater-contaminated groundwater
L.A. DeSimone (Marlborough, MA, USA), B.L. Howes and P.M. Barlow (New Bedford, MA, USA) 224

Cumulative Author Index Volumes 187–199 250

Cumulative Subject Index Volumes 187–189 285
